A Response To MJC And A Message To ALL The Men And Modern-Thinking 'Ulama' At Work *Behind* The Fake Man-Made Virus – *Second (Fake) Wave!*

We take solace in the following beautiful words of Allah Ta'ala in His Pure and Holy Kalaam where Allah Ta'ala consoles His Rasool (Sallallahu alaihi wasallam) of the evil speech, lies, schemes, Kufir and Shirk (etc.) of the Mushrikeen of Makkah:

"Let not their speech (taunts, accusations, lies, etc.) grieve you. Indeed, We are aware of what they keep secret (conceal) and what they make public." (Yaa-Seen, Aayat 76)

In this Aayat Allah Ta'ala informs Nabi (Sallallahu alaihi wasallam) **NOT** to grieve over the accusations, lies, plans, plots, etc. of the Kuffar of Makkah. We (Muslims in this era) should also not grieve over the plans and plots of the Kuffar aided by the modern-thinking 'political' 'Muslim scholars'. The plans and plots of these men **are flimsy and weak** in front of the **Qudrat** (Power) of Allah Ta'ala! These plans and plots are engineered by Shaitaan, regarding whom the Qur'an Majeed says, ***"Indeed, the scheme of Shaitaan is ever weak."*** (Nisaa, Aayat 76)

Allah Ta'ala informs us of the way to combat these challenges we are facing from Mr Gates, the government and the modern-thinking 'Ulama' in the following words, ***"If you exercise Sabr and adopt Taqwa, their (Kuffar's) schemes cannot affect you in the least. Verily, Allah encompasses their actions (and will make their schemes fail)."*** (Aal-Imraan, Aayat 120)

The MJC has released a 'press release' calling on the Masaajid to observe the silly and senseless protocols designed by the atheists, the Kuffar WHO, the Kuffar government and the Kuffar medical experts. Yes, the MJC is calling on the Imaams and Ulama to enforce these anti-Shari'ah and anti-Sunnah silly protocols in the Masaajid which are termed as the best of spots on earth in the Hadith Shareef!

It is of no surprise to us to hear of this *second* attack on the Masaajid once more by MJC, because they were part of the Amicus – *friends of the Kuffar, enemies of the Masaajid and Allah* – members who fought tooth and nail in the court case to keep the Masaajid **SHUT**. What a disgrace! How will they face the Ambiya (Alaihimus salaam) Qiyaamat’s Day when this ‘case’ will be heard in the Courts of Justice?

Furthermore, the MJC and UUCSA-JUSA type ‘scholars’ had followed, accepted and enforced and promoted the un-Islamic and anti-Shari’ah protocols of the Kuffar in the Masaajid. Yet, many shops (etc.) on the other hand had not enforced these protocols. Why haven’t they (MJC, UUCSA-JUSA) released press statements calling on Muslims to abstain from going to shops where there is not a semblance of the silly protocols enforced? **Why only the Masaajid?**

Indeed, we have seen many pedestrians, taxi drivers, shops, etc. who don’t follow even a single protocol of the Kuffar government. Why no ‘concern’ and ‘statements’ were / are issue by MJC and JUSA to warn the community to abstain from such behaviour? Why was there no concern of a (fake) ‘second wave’ due to the many people on the streets disobeying the protocols? **Why attack only the Masaajid?**

Does the MJC and UUCSA-JUSA type ‘scholars’ believe that the man-made virus only spreads in Salaah and NOT in Checkers, Pick n Pay, Shoprite, Makro and all the other malls packed with people? Well, their attitude displays this ‘belief’ of theirs! They should examine and re-visit the books of Aqeedah, if they intend to learn and reform.

Also, does MJC and UUCSA-JUSA follow and enforce strictly the satanic-social distancing protocol among themselves, in their offices and when they go out to do social work? Do they wear an unhealthy, brain-damaging mask at all times?

Lastly, as the readers may have noted our wording of the ‘second wave’ coupled with ‘fake’ in brackets, we reproduce the following in this regard (from page 3 till the end). Note how Kuffar are exposing this scam of the era dubbed as a ‘virus’ and how they have realised its senseless behaviour. Yet Muslim ‘scholars’ have stooped to a very low level where they are at the ‘mercy’ of their political masters, thus they can’t propagate the Deen of Nabi (Sallallahu alaihi wasallam) and have thus resorted to design another ‘Deen’ that will please their human-masters, governments and modern thinking ‘Muslims’!

Is The ‘Second Wave’ Pre-Planned???

The Covid-19 Numbers Game:

The “Second Wave” is Based on Fake Statistics

By Prof Michel Chossudovsky

Global Research, October 10, 2020

“Red zones”, travel bans, quarantines, “red lists”. A “Second Wave” has been announced.

The fear campaign has gone into overdrive. Millions of people are lining up for Covid-19 testing.

Drastic state measures are contemplated, including restrictions on social gatherings, marriages, funerals, the closing down of restaurants and bars, the outright paralysis of civil society.

Coming to the rescue of our citizens. What is the justification?

This article focusses on the “Numbers Game”. **How statistics and “estimates” are used by politicians to justify the closure of the national economy and the derogation of fundamental civil rights.**

From the onset of the Covid crisis in January 2020, far-reaching decisions taken by the WHO and national governments have been justified by citing “estimates” of the Covid-19 disease as well “statistics” pointing to a Worldwide spread of a new deadly coronavirus originating in Wuhan, China.

Scientific analysis confirms that these estimates of “confirmed cases” tabulated by the WHO and the CDC are subject to error. **The tests do not detect or identify the virus.** Moreover, the figures are often manipulated to justify political decisions.

Both the concepts as well as the test results do not point to the existence of a Worldwide Covid-19 pandemic. Nor do they justify social distancing, the face mask and the closing down of the global economy.

Corruption prevails at the highest levels of government as well within the upper echelons of the United Nations system. The entire state apparatus as well as inter-governmental organizations are controlled by powerful financial interests.

Millions of people are now being tested which contributes to increasing the number of so-called “confirmed” Covid positive cases Worldwide. These statistics are then

carefully tabulated. The governments need those numbers to justify their totalitarian measures.

What's the Big Lie? What's the Smoking Gun?

SARS-CoV-2 is NOT A "KILLER VIRUS". The fear campaign has no scientific basis. (See analysis below)

The standard RT-PCR test used to "detect" the insidious Virus, **"can not identify the Virus"**.

The Virus

In early January 2020, a so-called novel coronavirus entitled SARS-CoV-2, which causes "coronavirus disease 2019, or COVID-19" was identified. It was given a similar name to an existing coronavirus, namely SARS-CoV, i.e. the beta coronavirus that causes the severe acute respiratory syndrome (SARS)

According to renowned immunologist Dr. Beda Stadler of Bern University, "this so-called novel virus is very strongly related to SARS-1 as well to as other beta-coronaviruses **which make us suffer every year in the form of colds.**"

Stadler also begs the question: Is this a new virus or the mutation of an existing virus, **"similar to the corona beta cold viruses"**.

According to a recent study by Tsan-Yuk Lam, Na Jia, et al (Joint Institute of Virology, Shantou and Hong Kong universities): "...the [SARS-2] virus [is] most closely related (89.1% nucleotide similarity) to a group of SARS-like coronaviruses (genus Betacoronavirus, subgenus Sarbecovirus) (Nature, April 2020).

Moreover, the studies of Dr. Anthony Fauci et al in the New England Journal of Medicine as well as the WHO acknowledge that Covid-19 has similar features to seasonal influenza (Viruses A and B). (For further details, see Michel Chossudovsky, September 2020)

What these scientific statements convey is that SARS-2 (which causes Covid-19) is not a killer virus. In fact quite the opposite.

But neither the governments nor the media have reassured public opinion.

The fear campaign not only prevails, it is gaining momentum.

At this juncture of the Covid-19 crisis, governments are envisaging the launching of extreme measures in response to a so-called "Second Wave". In turn, several media are now spreading stories that this Second Wave is comparable to the 1918 Spanish Flu:

At this point in the coronavirus pandemic, with more than 32 million infected and more than 980,000 dead worldwide, describing this time as "unprecedented" may sound like nails on a chalkboard. This pandemic, however, actually isn't without precedent: The last

time we dealt with a pandemic so mysterious, uncontained and far-reaching was in 1918, when influenza devastated populations around the globe. (CNN, September 25, 2020)

Flashback to March 11, 2020: The Launching of the WHO Pandemic

On March 11, the WHO officially declared a Worldwide pandemic at a time when there were 18,000 confirmed cases and 4291 deaths out of a total World population outside China of the order of 6.4 billion people. What do these “statistics” tell you? **Most of these confirmed “positive cases” were estimated using the RT-PCR test which does not detect or identify the virus.**

Immediately following the March 11 WHO announcement the fear campaign went into high gear. Confinement instructions were transmitted to 193 member states of the United Nations. The outright closing down of national economies was upheld as a means to resolving a public health crisis.

Politicians are the instruments of powerful financial interests. Was this far-reaching decision justified as a means to combating the Virus? **Did the “numbers” (of confirmed cases) justify a Worldwide pandemic?**

Unprecedented in history, applied almost simultaneously in a large number countries, entire sectors of the World economy were destabilized. Small and medium sized enterprises were driven into bankruptcy. Unemployment and poverty are rampant.

In some countries famines have erupted. The social impacts of these measures are devastating.

The devastating health impacts (mortality, morbidity) of these measures including the destabilization of the system of national health care (in numerous countries) far surpass those attributed to Covid-19.

The Rush to Get Tested

In a large number of countries, simultaneously, people are encouraged to get tested which in turn contributes to increasing exponentially the number of so-called confirmed Covid-19 “positive cases”. Facilities are set up all over the country.

Panic prevails. national authorities establish testing facilities, do it yourself testing kits, etc.

People stand in line to get tested. The estimates are often manipulated.

In England “People stand in drive-thru lines as testing centres hit capacity”

With increasing numbers, as of early June, the health authorities in several countries have pointed to an imminent “Second Wave”.

What is the intent of the Second Wave?

To postpone “normalization”? To prevent the reopening of national economies? To trigger more unemployment?

Currently, national economies have partially reopened. **This Second Wave constitutes the “second phase” of a bankruptcy program, targeting the services economy, air transport, the tourism industry, retail trade, etc.**

Social distancing prevails. Schools, colleges and universities are closed down, social gatherings and family reunions are prohibited.

The face mask is reimposed **despite its negative health impacts**. We are told that it is all for a good cause. Combat the transmission of the virus.

These far-reaching decisions which derogate fundamental civil rights, are based on the “estimates” of Covid-19 positive cases, not to mention the manipulation of the test results.

The Reverse Transcription-Polymerase Chain Reaction Test (RT-PCR)

The standard test used to detect / identify SARS-2 around the World is The Reverse Transcription-Polymerase Chain Reaction Test (RT-PCR) which is used to estimate and tabulate the number of confirmed positive Covid-19 cases. (This is not the only test used. Observations below pertain solely to the standard PCR).

According to Nobel Laureate Dr. Kary Mullis, who invented the PCR test: “PCR detects a very small segment of the nucleic acid which is part of a virus itself. The specific fragment detected is determined by the somewhat arbitrary choice of DNA primers used which become the ends of the amplified fragment.”

The PCR test was never intended to identify the virus.

“PCR detection of viruses is helpful so long as its accuracy can be understood: it offers the capacity to detect RNA in minute quantities, but whether that RNA represents infectious virus may not be clear” (see also Lancet report)

The standard PCR Test applied in relation to Covid-19 does not detect or identify the virus. What it detects are fragments of the virus. According to renowned Swiss immunologist Dr B. Stadler

So if we do a PCR corona test on an immune person, it is not a virus that is detected, but a small shattered part of the viral genome. The test comes back positive for as long as there are tiny shattered parts of the virus left. **Even if the infectious virus are long dead, a corona test can come back positive, because the PCR method multiplies even a tiny fraction of the viral genetic material enough [to be detected].**

According to Dr. Pascal Sacré, **“these tests detect viral particles, genetic sequences, not the whole virus”**

What this means is that the PCR test cannot detect or identify SARS-CoV-2. What it detects are fragments, which suggests that a standard “PCR positive” cannot be equated to a so-called Covid-19 Positive.

“Fragments of viruses positive” does not mean “SARS-2 positive” (or Covid-19 Positive).

In other words, the published estimates of COVID-19 positive (resulting from the standard PCR test) in support of the Second Wave hypothesis are often misleading and cannot be used to measure the spread of SARS-2.

There are currently, at the time of writing (according to WHO statistics) almost 33 million so-called “confirmed cases” and 1 million deaths. Are these alleged “Covid-19 positive” estimates which are in large part based on the RT-PCR test reliable? Global Research has published numerous reports on these issues.

Once the Covid-19 Positive label is established and accepted, it is then subject to numerous forms of manipulation, not to mention the falsification of death certificates.

These figures are then used to sustain the fear campaign and justify political decisions by corrupt national governments.

The public is led to believe that there is a “Second Wave” and the government is there to save lives through social distancing, the face mask, the closing down of economic activity, the paralysis of the national health system and the closing down of schools and universities.

There is a circular causal relationship. The more people get tested as a result of the fear campaign, the more PCR positive cases. ...
